Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is to increase the amount of waste accepted at the site from 10,000 to 75,000 tonnes per annum, to add the activity D14 for the repackaging of material that takes place on site and to add additional waste codes to the types of waste acceptable at the site as listed below:

06 01 06*, 08 01 11*, 08 01 13*, 08 04 09*, 08 04 10, 11 01 08*, 11 01 09*, 12 01 09*, 16 01 13*, 16 01 14*, 16 03 04, 16 03 05*, 16 03 06, 16 06 06*, 19 12 11*, 19 12 12, 20 01 25 and 20 01 27*

The schedules specify the changes made to the original permit.

We consider that in reaching our decision to vary the permit we have taken into account all relevant considerations and legal requirements and that the permit will ensure at least an equivalent level of protection to human health and the quality of the environment.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
